

Integrated Quality and Environmental Policy

OIKI S.p.A. – Parma, Italy

For over **50 years**, **OIKI S.p.A.** has been a trusted partner in the **stainless steel industry**, specializing in the distribution and processing of long and flat stainless steel products, offering custom cutting, dedicated supplies, and a fast, flexible service. From its headquarters in **Parma, Italy**, OIKI combines **passion, flexibility, and expertise** to deliver **tailor-made stainless steel solutions** to customers in more than **40 countries worldwide**.

Commitment to Quality and Sustainability

OIKI has implemented an **Integrated Management System** compliant with **UNI EN ISO 9001** and **ISO 14001**, ensuring the highest standards of **quality, efficiency, and environmental responsibility**.

Our goal is to **satisfy our customers, protect the environment, and promote sustainable growth** through continuous improvement and innovation.

Our Core Principles

Customer Focus

Understanding and anticipating our customers' needs to provide effective, high-quality, and timely solutions.

Quality and Reliability ***

Guaranteeing efficient, controlled, and traceable production processes in full compliance with international standards.

Environmental Protection

Preventing pollution and reducing emissions, waste, and resource consumption while promoting energy and material efficiency.

Regulatory Compliance

Respecting all applicable laws, regulations, and requirements related to quality and environmental management.

Employee Engagement and Training

Encouraging participation, responsibility, and continuous learning to foster a culture of quality and sustainability.

Partnership and Collaboration

Working closely with suppliers and partners who share our values of innovation, integrity, and continuous improvement.

Continuous Improvement

Monitoring system performance, setting measurable objectives, and reviewing strategies to ensure ongoing effectiveness.
